EDUCATION

Lovely Professional University

Punjab

B.Tech in Computer Science and Engineering

Aug 2022 – Present

- **Relevant Coursework:** Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Software Engineering

EXPERIENCE

Software Testing Intern

Aug 2025 – Oct 2025

EduTantr

Remote

- Developed and maintained automated test scripts using Selenium WebDriver for web applications.
- Performed functional, regression, and UI testing following SDLC and STLC methodologies.
- Collaborated with developers in Agile teams to identify, debug, and resolve software defects.
- Prepared structured test cases, bug reports, and test documentation ensuring software quality.
- Applied Object-Oriented Programming principles while developing automation scripts.

PROJECTS

AI Sports Odds Platform | React, Node.js, FastAPI, Python

2025

- Developed a full-stack sports analytics platform using React, Node.js, and FastAPI.
- Designed REST APIs for AI-powered sports odds prediction and analytics.
- Integrated frontend with backend services for seamless data visualization.
- Implemented scalable backend architecture following modular development practices.

Questionnaire AI | Python, FastAPI, OpenAI API

2025

- Built an AI-powered application for uploading questionnaires and generating automated responses.
- Developed REST APIs for secure document upload and AI-based answer generation.
- Integrated OpenAI APIs to provide contextual responses from uploaded files.
- Implemented backend validation and efficient file-processing workflows.

CRM Lead Management System | React, Node.js, MySQL

2025

- Developed a CRM application to manage customer leads and business workflows.
- Implemented CRUD operations with MySQL database integration.
- Designed responsive dashboard interfaces for efficient lead management.
- Built scalable frontend components with clean application architecture.

CyberJoar Frontend Assignment | React, TypeScript

2025

- Developed responsive user interfaces using React and TypeScript.
- Built reusable UI components following modern frontend development practices.
- Improved user experience through responsive layouts and optimized rendering.
- Maintained clean, modular, and reusable frontend code.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C++, MySQL

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, FastAPI, REST APIs, Object-Oriented Programming (OOP)

Databases: MySQL

Tools: Git, Docker, Postman, Selenium, Jira, VS Code

AI & Automation: OpenAI API Integration, Workflow Automation, Web Scraping, Automation Scripting

Core CS: Data Structures, Algorithms, SDLC, STLC, Unit Testing, Debugging, Code Reviews
