Education

Lovely Professional University

B.Tech in Computer Science and Engineering

Aug 2022 – May 2026

Jalandhar, Punjab

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Artificial Intelligence, NLP, Distributed Systems, DBMS, Statistics

Experience

Know AI

AI Intern

June 2026 – Present

Ahmedabad, Gujarat

- Built **LLM apps, AI agents, and RAG pipelines** using Python, LangGraph, LangChain, FastAPI, and Hugging Face.
- Designed **multi-step workflows, state management, and tool integration** for reliable task execution.
- Implemented **evaluations, error handling, and fallbacks** to reduce failures in production workflows.
- Integrated backend systems with **vector databases and APIs** for seamless deployment and monitoring.
- Collaborated with cross-functional teams to **ship production-ready AI features** and maintain high code quality.

flickDone

Data Engineer Intern

June 2025 – Aug 2025

Remote

- Built **Python and SQL data pipelines** processing **50,000+ records** for analytics and machine learning workflows.
- Developed **ingestion, validation, and transformation** pipelines using Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** and reduced **query latency by 25%** through data optimization.

Projects

LangGraph Workflow Orchestrator | Live Demo

Aug 2026

- Built a **stateful agent orchestration platform** for multi-step task execution, routing, and workflow automation.
- Used **Python, LangGraph, LangChain, FastAPI, and Gemini** for state management and error recovery.

Production-Grade RAG Engine | Live Demo

Jun 2026 – Aug 2026

- Developed an **end-to-end production RAG app** for document ingestion, vector retrieval, reranking, and evaluation.
- Used **Python, FastAPI, Qdrant, LangChain, and AWS** to build fallback execution and vector search.

Regulatory Compliance RAG Assistant | Live Demo

Jun 2026 – Aug 2026

- Built a **compliance RAG assistant** retrieving document contexts to deliver grounded analysis.
- Used **Python, Streamlit, LangChain, and vector search** for interactive uploads and querying.

Technical Skills

Languages: Python, SQL, Java, C++, JavaScript, TypeScript

Frameworks & Libraries: LangGraph, LangChain, FastAPI, Pydantic, Pandas, NumPy

Databases: Qdrant, ChromaDB, PostgreSQL, MySQL

Cloud & Infrastructure: AWS, Docker, Linux, CI/CD, Deployment

Tools & Platforms: Git, GitHub Actions, RAG, Vector Search, LLM APIs

Achievements & Awards

1st Place – Hackathon 2025 – Secured **1st place** in an AI hackathon, recognized for developing an AI-focused solution.

SAP Certified Data Analyst – Earned the **SAP Certified Data Analyst – SAP Analytics Cloud** certification.

Generative AI Certification – Completed **Generative AI** certification from DeepLearning.AI.

Prompt Engineering Certification – Completed **Prompt Engineering for ChatGPT** certification from Vanderbilt University.

AI Applications Development Certification – Completed **AI Applications Development** certification through Scrimba.
