SUMMARY

Machine Learning Engineer with hands-on experience building **AI agents, LLM applications, RAG systems, and evaluation workflows** using Python, LangChain, LangGraph, FastAPI, and OpenAI APIs. Experienced in **LLM evaluation, regression testing, response validation, failure analysis, monitoring, retrieval evaluation, and agent reliability**, with research exposure in machine learning and computer vision.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

- Relevant Coursework:** Machine Learning, Artificial Intelligence, NLP, Data Structures & Algorithms, Statistics, Distributed Systems

Jalandhar, Punjab

Aug 2022 – May 2026

EXPERIENCE

AI Intern

Know AI

- Build **AI agents and LLM applications** using Python, LangChain, LangGraph, FastAPI, and OpenAI APIs.
- Develop **multi-step agent workflows** with tool calling, task routing, structured outputs, and context-aware execution.
- Implement **evaluation, regression testing, response validation, logging, monitoring, and debugging** for non-deterministic AI behavior.
- Analyze failure cases across retrieval, tool execution, prompts, and model responses to improve **agent reliability and output quality**.

June 2026 – Present

Ahmedabad, Gujarat

Data Engineer Intern

flickDone

- Built **Python and SQL data pipelines** processing **50,000+ records** for analytics and machine learning workflows.
- Developed data validation, preprocessing, quality checks, and transformation workflows using Python, Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** and reduced **query latency by 25%** through workflow optimization.
- Implemented **Docker, GitHub Actions, and CI/CD** for reproducible testing and deployment workflows.

June 2025 – Aug 2025

Remote

PROJECTS

Morning Market Brief | *Python, LangGraph, LangChain, OpenAI API, Docker*

- Built a **multi-agent system** using LangGraph for tool calling, task routing, agent collaboration, and multi-step workflow execution.
- Implemented **evaluation, regression testing, logging, and monitoring** to identify agent failures and detect behavioral regressions.
- Analyzed retrieval and tool-use failures to improve **agent reliability, context handling, and response quality**.

Jun 2024 – Aug 2024

Production-Grade RAG Engine | *Live Demo* | *Python, FastAPI, Gemini, Qdrant, Inngest*

- Built a production-oriented **RAG evaluation workflow** covering retrieval, grounding, response validation, and LLM question answering.
- Implemented **fallback execution, configurable workflows, and failure handling** for unreliable retrieval or model responses.
- Designed checks for **retrieval quality, grounding, and regression detection** to validate changes before deployment.

Jun 2026 – Aug 2026

Regulatory Compliance RAG Assistant | *Live Demo* | *Python, LangChain, Hugging Face, ChromaDB*

- Developed a **domain-specific RAG system** using transformer models, embeddings, semantic search, retrieval, and grounded generation.
- Evaluated **retrieval relevance and grounded responses** across document-based question answering workflows.
- Added **response validation and regression testing** to identify failure patterns and improve consistency.

Apr 2026 – Jun 2026

TECHNICAL SKILLS

Programming: Python, SQL

AI/ML: Machine Learning, NLP, Transformers, Computer Vision, Model Evaluation

Agent Intelligence: AI Agents, Multi-Agent Systems, Tool Calling, Task Routing, LangGraph

Evaluation: LLM Evaluation, Regression Testing, Retrieval Evaluation, Response Validation, Failure Analysis, Benchmarking

RAG: RAG, Embeddings, Vector Search, Semantic Search, Grounding, ChromaDB, Qdrant

Frameworks: LangChain, LangGraph, FastAPI, Hugging Face

Observability: Logging, Monitoring, Debugging, Reliability Analysis

Engineering: REST APIs, Docker, Git, CI/CD, Distributed Systems
