EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

June 2026 – Present

Know AI

Ahmedabad, Gujarat

- Built production LLM applications using Python, PyTorch, FastAPI, multimodal AI, and prompt engineering workflows.
- Developed FastAPI services integrating LLMs, vector databases, retrieval pipelines, and scalable inference workflows.
- Designed embedding, document indexing, retrieval, and data pipelines supporting domain-specific AI applications.
- Implemented evaluation, monitoring, validation, and testing workflows improving production AI reliability.
- Built LangChain AI assistants using deep learning, multimodal models, and intelligent workflow automation.

Data Engineer Intern

June 2025 – Aug 2025

flickDone

Remote (South Korea-based company)

- Built scalable ETL pipelines processing 50,000+ records using Python, Pandas, NumPy, SQL, and databases.
- Developed data ingestion, transformation, embedding, and processing pipelines supporting AI applications.
- Optimized PostgreSQL and MySQL queries improving backend performance and data accessibility.
- Created automated validation workflows improving data quality for machine learning applications.
- Developed REST APIs and containerized deployments using Docker, Git, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Built a Retrieval-Augmented Generation system using LangChain, embeddings, and vector databases for domain knowledge retrieval.
- Implemented document processing, indexing, retrieval pipelines, and FastAPI services for AI applications.
- Developed evaluation workflows measuring retrieval quality, response accuracy, and model performance metrics.
- Applied prompt engineering and retrieval optimization techniques for reliable AI assistants.

Smart Traffic AI Surveillance System | Python, YOLO, OpenCV, FastAPI, AWS

Jun 2025 – Aug 2025

- Built a computer vision system using YOLO, OpenCV, and Python for object detection and tracking.
- Developed image processing pipelines for detection, classification, and scalable inference workflows.
- Integrated FastAPI services for AI model deployment and backend application workflows.
- Containerized AI services using Docker and AWS for reliable production deployments.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI

Jun 2024 – Aug 2024

- Built a multi-agent AI assistant for automated reasoning, information processing, and workflow execution.
- Integrated OpenAI APIs with prompt engineering for intelligent analysis and domain-specific automation.
- Implemented evaluation, logging, monitoring, and testing workflows for reliable AI applications.
- Developed containerized deployments using Docker for scalable AI services and backend operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++

AI/ML: Large Language Models, LLM Fine-Tuning, Generative AI, RAG, Reinforcement Learning, Prompt Engineering, Model Evaluation, Synthetic Data, Benchmarking

Frameworks: PyTorch, LangChain, FastAPI, TensorFlow, OpenCV, Scikit-learn, Hugging Face Transformers

Data & APIs: Pandas, NumPy, REST APIs, PostgreSQL, MySQL, Vector Databases, Embeddings, Data Pipelines

Cloud & MLOps: AWS, Docker, Git, GitHub Actions, Linux, CI/CD, Model Deployment, Monitoring

Engineering: Backend Development, AI Assistants, Multi-Agent Systems, Production ML Systems, Object-Oriented Programming, Data Structures, Algorithms
