EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, NLP, Distributed Systems, Statistical Analysis

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built Generative AI workflows using LLMs, LangChain, AI agents, structured outputs, and evaluation pipelines.
- Developed FastAPI services and REST APIs integrating LLM applications, AI search, and automation workflows.
- Designed Retrieval-Augmented Generation (RAG) pipelines using embeddings, vector databases, and retrieval workflows.
- Built AI evaluation pipelines performing output validation, safety checks, error analysis, and optimization.
- Improved AI system reliability through API debugging, retry handling, fallback workflows, and scalable inference development.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable data pipelines processing 50,000+ records using Python (NumPy, Pandas) and SQL for AI workflows
- Designed ETL pipelines for data ingestion, preprocessing, validation, and intelligent processing automation
- Optimized PostgreSQL and MySQL queries improving database performance, indexing, and data retrieval
- Built automated validation frameworks ensuring reliable datasets for machine learning applications
- Contributed to REST APIs and CI/CD backend workflows using GitHub, Docker, and Linux deployments

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face

Apr 2026 – Jun 2026

- Built a RAG assistant using Python, LangChain, Hugging Face, and ChromaDB frameworks for compliance workflows
- Implemented semantic search with vector embeddings and efficient document retrieval pipelines
- Optimized RAG pipelines for reliable retrieval and improved LLM response quality consistently
- Developed monitoring workflows for AI response validation, safety analysis, and performance metrics

Agentic AI Recommendation System | Python, FastAPI, Docker, LangChain, Prisma

Jun 2025 – Aug 2025

- Built an AI agent system using Python, FastAPI, and LangChain with workflow orchestration efficiently
- Integrated LangChain and Prisma for scalable agent workflows and data processing pipelines
- Developed REST APIs supporting multi-step AI workflows and backend integrations seamlessly
- Containerized applications using Docker for reliable deployment and scalable AI services

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI

Jun 2024 – Aug 2024

- Built a multi-agent AI system for automated information generation and reasoning workflows
- Integrated OpenAI APIs for intelligent summarization, reasoning, and content generation capabilities
- Implemented workflow monitoring with execution logging and AI response tracking mechanisms
- Containerized AI services using Docker for scalable production deployments and automation

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL (Postgres), JavaScript

Frameworks: FastAPI, Flask, Async Python, LangChain, LangGraph, React, Node.js

Developer Tools: Git, Docker, GitHub Actions, Azure OpenAI, Azure Blob Storage, VS Code, Linux

Libraries: Hugging Face, pandas, NumPy, Pydantic, Matplotlib
