EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Researched and prototyped AI and LLM solutions using Python, RAG, embeddings, and prompt engineering.
- Built proof-of-concept backend services and REST APIs supporting AI models and enterprise applications.
- Designed data pipelines for ingestion, preprocessing, retrieval, experimentation, and AI automation.
- Evaluated model performance through testing, validation, monitoring, and iterative optimization workflows.
- Explored LangChain, Hugging Face, vector databases, and retrieval techniques for production-ready AI systems.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable data pipelines processing 50,000+ records using Python, Pandas, NumPy, and SQL.
- Developed ETL pipelines for data ingestion, preprocessing, transformation, and validation.
- Optimized PostgreSQL and MySQL queries improving database performance and data access efficiency.
- Created automated validation workflows improving data quality and reliability for AI applications.
- Developed REST APIs and containerized deployments using Docker, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Researched and built a Retrieval-Augmented Generation (RAG) application using Python, LangChain, Hugging Face, embeddings, and ChromaDB.
- Implemented retrieval pipelines using vector databases and transformer language models for unstructured data.
- Developed evaluation workflows to assess AI response accuracy, retrieval quality, and model performance.
- Prototyped prompt engineering and retrieval strategies to improve AI system reliability.

AI Recommendation System | Python, FastAPI, Docker, LangChain, Prisma

Jun 2025 – Aug 2025

- Built an AI-powered recommendation prototype using LLM workflows, FastAPI, and backend services.
- Designed REST APIs and data pipelines supporting AI-driven recommendations and product integrations.
- Integrated structured data processing with AI components for intelligent recommendation workflows.
- Containerized services using Docker for reliable deployment and production-ready environments.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI

Jun 2024 – Aug 2024

- Built a multi-agent AI prototype for automated reasoning, information processing, and workflow execution.
- Integrated OpenAI APIs and prompt engineering for LLM-powered analysis and automation.
- Implemented execution tracking, logging, and monitoring for reliable AI workflows.
- Developed containerized deployments using Docker for scalable AI services and automated operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++

AI/ML: Machine Learning, Large Language Models, Generative AI, RAG, NLP, Embeddings, Transformers, Prompt Engineering, Model Evaluation

Frameworks: PyTorch, Hugging Face Transformers, FastAPI, Flask, LangChain, Scikit-learn

Data & APIs: Pandas, NumPy, ETL/ELT, Structured Data, Unstructured Data, REST APIs, Vector Databases, ChromaDB

Cloud & MLOps: AWS, Docker, Git, GitHub Actions, Linux, CI/CD, Azure OpenAI

Engineering: Research, Prototyping, Backend Development, Object-Oriented Programming, Data Structures, Algorithms
