SUMMARY

AI/ML Engineer with hands-on experience building **LLM-powered applications, AI agents, RAG pipelines, backend services, and automated AI workflows**. Experienced in **Python, FastAPI, LangChain, LangGraph, LLM APIs, tool calling, structured outputs, vector search, API integration, data processing, Docker, and monitoring**. Skilled in designing reusable agent workflows, integrating AI systems with APIs and databases, implementing validation and observability, and developing production-oriented AI applications with a strong focus on reliability, scalability, and automation.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures & Algorithms, Artificial Intelligence, Machine Learning, NLP, Distributed Systems, DBMS, Computer Networks, Statistics

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Develop **LLM-powered applications and AI agent workflows** using Python, LangChain, LangGraph, FastAPI, Hugging Face, and LLM APIs.
- Build **single- and multi-step agent workflows** with tool integration, structured execution, state management, validation, and controlled task orchestration.
- Integrate AI applications with **REST APIs, vector databases, structured data sources, and external services** to automate business workflows.
- Implement **logging, monitoring, testing, error handling, validation, and fallback mechanisms** to improve reliability of AI applications.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote

- Built **Python and SQL data pipelines** processing **50,000+ records** for analytics and machine learning workflows.
- Developed **data ingestion, preprocessing, transformation, validation, and automation workflows** using Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** and reduced **query latency by 25%** through data and query optimization.
- Implemented **Docker, GitHub Actions, and CI/CD** for reproducible development, automated testing, and deployment workflows.

PROJECTS

LangGraph Workflow Orchestrator | *Live Demo* | *Python, LangGraph, LangChain, FastAPI, Gemini* Aug 2026

- Built a **production-oriented AI workflow orchestration platform** supporting task routing, stateful execution, tool integration, structured outputs, and multi-step workflows.
- Designed reusable **agent abstractions, tool interfaces, execution states, validation, and failure handling** for reliable AI workflow execution.
- Developed **FastAPI APIs** for triggering and managing AI workflows with testing, debugging, monitoring, and structured error handling.

Production-Grade RAG Engine | *Live Demo* | *Python, FastAPI, Qdrant, AWS, Inngest* Jun 2026 – Aug 2026

- Built a **production-oriented RAG pipeline** covering document ingestion, preprocessing, embeddings, vector retrieval, ranking, generation, and evaluation.
- Developed **FastAPI APIs and automated processing workflows** for document ingestion, semantic retrieval, backend integration, and scalable execution.

- Implemented **validation, fallback execution, error handling, logging, testing, and monitoring** for reliable AI system operation.

AI Product Recommendation System | *Python, FastAPI, SQL, LangChain, Docker* Jun 2025 – Aug 2025

- Built an **LLM-powered recommendation application** integrating AI workflows with Python backend services, SQL databases, and structured product data.
- Implemented **data processing, embeddings, retrieval, and recommendation workflows** for intelligent product discovery.
- Integrated backend components through **REST APIs** and containerized services using Docker for reproducible deployment.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C++, JavaScript, TypeScript

AI/Agents: LLMs, AI Agents, LangChain, LangGraph, RAG, Tool Calling, Prompt Engineering, Structured Outputs, Embeddings, Vector Search

Backend: FastAPI, REST APIs, Backend Services, API Integration, Async Processing, Pydantic

Data/ML: Machine Learning, NLP, ML Pipelines, Data Pipelines, Data Processing, Feature Engineering, Model Evaluation

Databases: PostgreSQL, MySQL, Qdrant, ChromaDB, Vector Databases

Cloud/Infrastructure: AWS, Docker, Linux, Git, GitHub Actions, CI/CD

Reliability: Testing, Debugging, Validation, Logging, Monitoring, Error Handling, Observability, Deployment

Tools: Pandas, NumPy, PyTorch, scikit-learn, Hugging Face
