SUMMARY

AI Engineer with hands-on experience building and deploying **production-oriented AI/ML applications, LLM workflows, RAG systems, backend services, and data pipelines**. Experienced in **Python, FastAPI, LangChain, LangGraph, LLMs, embeddings, vector search, SQL, Docker, AWS, CI/CD, testing, monitoring, and API integration**, with a strong focus on shipping reliable AI systems, automating complex workflows, and solving real-world business problems.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Artificial Intelligence, NLP, Distributed Systems, DBMS, Statistics

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Build **production-oriented AI applications and LLM-powered workflows** using Python, FastAPI, LangChain, LangGraph, Hugging Face, and LLM APIs.
- Develop **AI-driven automation workflows, REST APIs, data processing pipelines, and backend integrations** connecting AI systems with structured data, vector databases, and external services.
- Implement **RAG pipelines, tool integrations, embeddings, retrieval workflows, validation, and evaluation** for reliable AI-assisted applications.
- Improve system reliability through **testing, debugging, monitoring, logging, error handling, and iterative performance optimization**.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote

- Built **Python and SQL data pipelines** processing **50,000+ records** for analytics and machine learning workflows.
- Developed **data ingestion, preprocessing, validation, transformation, and feature preparation** pipelines using Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** and reduced **query latency by 25%** through data and query optimization.
- Implemented **Docker, GitHub Actions, CI/CD, automated testing, and deployment workflows** for reproducible engineering environments.

PROJECTS

Production-Grade RAG Engine | *Live Demo* | *Python, FastAPI, Qdrant, AWS, Inngest*

Jun 2026 – Aug 2026

- Built a **production-oriented AI platform** covering document ingestion, preprocessing, embeddings, retrieval, ranking, generation, and evaluation.
- Developed **FastAPI APIs and backend services** for document processing, semantic search, retrieval, and LLM-powered question answering.
- Implemented **validation, evaluation, fallback execution, error handling, testing, monitoring, and logging** to improve reliability of AI workflows.

LangGraph Workflow Orchestrator | *Live Demo* | *Python, LangGraph, FastAPI, LangChain, Gemini*

Aug 2026

- Built a **multi-step AI workflow platform** for task routing, stateful execution, tool integration, and autonomous workflow orchestration.
- Designed reusable **agent workflows, structured state management, tool calling, API integrations, and controlled execution** for complex AI tasks.

- Implemented **testing, debugging, validation, monitoring, and failure analysis** across multiple workflow execution patterns.

Regulatory Compliance RAG Assistant | *Python, RAG, LangChain, Vector Search, Streamlit* 2026

- Built a **document-focused RAG application** for retrieving and generating answers from regulatory and compliance information.
- Implemented **document ingestion, chunking, embeddings, vector retrieval, contextual generation, and response validation** for unstructured documents.
- Designed the application around **traceable retrieval and reliable AI-assisted decision support** for business workflows.

AI Product Recommendation System | *Python, FastAPI, SQL, LangChain, Docker* Jun 2025 – Aug 2025

- Built a **Python and FastAPI AI application** integrating recommendation workflows with backend services and structured data.
- Implemented **data processing, embeddings, retrieval, ranking, and recommendation workflows** for personalized product discovery.
- Containerized backend services using **Docker** for reproducible development, testing, and deployment.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C++, JavaScript

AI/ML: Machine Learning, Deep Learning, NLP, LLMs, Generative AI, Model Evaluation, Prompt Engineering

Agentic AI: LangChain, LangGraph, AI Agents, Tool Calling, Multi-Step Workflows, Workflow Orchestration

RAG/Information Retrieval: RAG, Embeddings, Vector Search, Semantic Search, Document Processing, Qdrant, ChromaDB

Backend: FastAPI, REST APIs, Backend Services, API Integration, Async Processing, Service Integration

Data: Pandas, NumPy, PostgreSQL, MySQL, SQL, Data Pipelines, Data Processing, Feature Engineering

Cloud/Infrastructure: AWS, Docker, Linux, Git, GitHub Actions, CI/CD, Deployment

AI Engineering: Model Serving, MLOps, Monitoring, Logging, Testing, Evaluation, Debugging, Error Handling, Performance Optimization
