EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, NLP, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built production AI applications using Python, FastAPI, PyTorch, and Large Language Models.
- Developed backend services, REST APIs, microservices, and automation pipelines for scalable AI deployment.
- Designed AI workflows using APIs, databases, embeddings, vector databases, and external services.
- Implemented prompt engineering, testing, evaluation, monitoring, and debugging to improve AI application reliability.
- Built modular backend services integrating AI workflows with APIs and databases for production deployment.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable data pipelines processing 50,000+ records using Python, Pandas, NumPy, and SQL.
- Developed data ingestion, preprocessing, transformation, and ETL workflows supporting reliable applications.
- Optimized PostgreSQL and MySQL queries improving backend performance and data accessibility.
- Created automated validation, testing, and monitoring workflows improving system quality and reliability.
- Developed REST APIs and deployed backend services using Docker, Git, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Built RAG application using Python, LangChain, embeddings, and ChromaDB for knowledge retrieval.
- Implemented document processing, indexing, retrieval pipelines, and FastAPI services.
- Developed evaluation and testing workflows measuring retrieval accuracy and response quality.
- Applied prompt engineering techniques improving application reliability and response consistency.

Smart Traffic AI Surveillance System | Python, YOLO, OpenCV, FastAPI, AWS Jun 2025 – Aug 2025

- Built computer vision system using Python, YOLO, and OpenCV for real-time object detection.
- Developed image preprocessing and inference pipelines supporting scalable machine learning analysis.
- Integrated FastAPI services with REST APIs for reliable AI model deployment.
- Containerized AI services using Docker and AWS for scalable cloud deployment.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI Jun 2024 – Aug 2024

- Built multi-agent AI assistant using Python and LLMs for reasoning, automation, and task execution.
- Integrated OpenAI APIs with prompts, tools, and structured workflows for AI-powered applications.
- Implemented logging, testing, monitoring, and evaluation for reliable software systems.
- Developed Docker deployments for scalable AI backend services and reproducible environments.

TECHNICAL SKILLS

Languages: Python, SQL, Java, C/C++

AI/ML: Machine Learning, Generative AI, Large Language Models, AI Agents, RAG, Prompt Engineering, Model Evaluation

Frameworks: FastAPI, PyTorch, LangChain, Hugging Face Transformers

Data & APIs: REST APIs, PostgreSQL, MySQL, Vector Databases, Data Pipelines

Engineering: Backend Development, AWS, Docker, Git, GitHub Actions, Software Testing, Debugging, Distributed Systems
