SUMMARY

AI/ML Engineer with hands-on experience building Generative AI, LLM, RAG, and agentic AI applications using Python, LangChain, LangGraph, OpenAI APIs, FastAPI, and vector databases. Experienced in prompt and context engineering, NLP, transformer-based models, embeddings, tool/function calling, retrieval pipelines, AI evaluation, observability, testing, and CI/CD. Strong foundation in machine learning and production-oriented AI engineering, with experience integrating scalable AI services through REST APIs and Docker.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, DBMS, Artificial Intelligence, Machine Learning, Deep Learning, NLP, Distributed Systems

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Developed AI/ML applications using Python, LLM APIs, LangChain, LangGraph, RAG, embeddings, vector databases, and FastAPI.
- Built and optimized prompt and context engineering workflows for LLM applications using structured prompts, retrieval, tool calling, and structured outputs.
- Designed RAG pipelines integrating document ingestion, chunking, embeddings, vector search, retrieval, and LLM generation for domain-specific applications.
- Developed agentic AI workflows with tool/function calling, multi-step reasoning, external API integration, evaluation, monitoring, testing, and debugging.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote

- Built Python and SQL data pipelines processing 50,000+ records using Pandas, NumPy, ETL, preprocessing, transformation, and automated validation workflows.
- Developed data ingestion and quality pipelines supporting machine learning applications and reliable downstream model workflows.
- Implemented CI/CD and containerized deployment workflows using Docker, GitHub Actions, Git, Linux, and REST API integrations.

PROJECTS

Morning Market Brief | *Python, OpenAI API, LangGraph, Docker*

Jun 2024 – Aug 2024

- Built a multi-agent LLM application using Python, OpenAI APIs, and LangGraph for agent orchestration, reasoning, routing, tool calling, and multi-step task execution.
- Implemented prompt engineering, structured outputs, external API integration, and reusable agent workflows for automated AI-driven analysis.
- Added logging, testing, evaluation, monitoring, debugging, and Docker deployment practices to improve reliability and reproducibility.

Regulatory Compliance RAG Assistant | *Python, LangChain, Hugging Face, ChromaDB*

Apr 2026 – Jun 2026

- Built a production-oriented RAG pipeline using Python, LangChain, Hugging Face embeddings, ChromaDB, and LLM inference for domain-specific document Q&A.
- Implemented document ingestion, preprocessing, chunking, embedding generation, vector indexing, semantic search, retrieval, prompt construction, and LLM generation.
- Developed retrieval evaluation workflows to improve context relevance, grounded responses, and reliability of LLM-generated answers.

- Built a computer vision AI application using Python, YOLO, and OpenCV for real-time object detection, preprocessing, and ML inference.
- Developed model inference and evaluation pipelines demonstrating practical AI deployment and performance optimization workflows.
- Integrated FastAPI REST APIs, Docker, and AWS to expose AI inference services and support scalable cloud-based deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, Java, C/C++

Generative AI: LLMs, Generative AI, RAG, Agentic AI, Prompt Engineering, Context Engineering, OpenAI API, Embeddings, Tool Calling, Function Calling

AI/ML: Machine Learning, Deep Learning, NLP, Transformers, Computer Vision, PyTorch, Hugging Face Transformers, scikit-learn, YOLO, OpenCV

Frameworks: LangChain, LangGraph, FastAPI

Data & Retrieval: ChromaDB, Vector Databases, Vector Search, Pandas, NumPy, PostgreSQL, MySQL, ETL, Data Preprocessing

Engineering & MLOps: REST APIs, Docker, Git, GitHub Actions, CI/CD, Linux, Testing, Debugging, Monitoring, Observability, Model Evaluation, AWS
