EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built AI and LLM workflows using Python, embeddings, prompt engineering, RAG, and model evaluation.
- Developed backend services and REST APIs supporting AI models, data integrations, and GenAI applications.
- Designed data pipelines for ingestion, preprocessing, transformation, retrieval, and AI automation.
- Implemented model evaluation, validation, monitoring, testing, and performance optimization workflows.
- Experimented with AI frameworks, datasets, retrieval techniques, and agentic workflows to improve model performance.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable data pipelines processing 50,000+ records using Python, Pandas, NumPy, and SQL.
- Developed ETL pipelines for data ingestion, preprocessing, transformation, and validation.
- Optimized PostgreSQL and MySQL queries improving database performance and data access efficiency.
- Created automated validation workflows improving data quality and reliability for AI applications.
- Developed REST APIs and containerized deployments using Docker, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Built an agentic RAG application using Python, LangChain, Hugging Face, embeddings, and ChromaDB.
- Implemented retrieval pipelines using vector databases and transformer language models for unstructured data.
- Developed evaluation workflows to assess AI response accuracy, reliability, retrieval quality, and performance.
- Experimented with prompt engineering, retrieval strategies, embeddings, and model configurations.

AI Recommendation System | Python, FastAPI, Docker, LangChain, Prisma

Jun 2025 – Aug 2025

- Built an AI-powered recommendation platform using LLM workflows, FastAPI, and backend services.
- Designed REST APIs and data pipelines supporting AI-driven recommendations and application integrations.
- Integrated structured data processing with AI components for product intelligence workflows.
- Containerized services using Docker for reliable deployment and cloud-ready environments.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI

Jun 2024 – Aug 2024

- Built a multi-agent AI system for automated reasoning, information processing, and workflow execution.
- Integrated OpenAI APIs and prompt engineering for LLM-powered analysis and automation.
- Implemented execution tracking, logging, and monitoring for reliable AI workflows.
- Developed containerized deployments using Docker for scalable AI services and automated operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++ **AI/ML:** Machine Learning, Regression, Classification, Clustering, Large Language Models, Generative AI, RAG, AI Agents, NLP, Embeddings, Transformers, Prompt Engineering, Model Evaluation **Frameworks:** PyTorch, Hugging Face Transformers, FastAPI, Flask, LangChain, Scikit-learn **Data APIs:** Pandas, NumPy, ETL/ELT, Structured Data, Unstructured Data, REST APIs, Vector Databases, ChromaDB **Cloud MLOps:** AWS, Docker, Git, GitHub Actions, Linux, CI/CD, Azure OpenAI, Azure Blob Storage **Engineering:** Data Structures, Algorithms, Object-Oriented Programming, Backend Development, Model Deployment
