Education

Lovely Professional University

B.Tech in Computer Science and Engineering

Aug 2022 – May 2026

Jalandhar, Punjab

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Artificial Intelligence, NLP, Distributed Systems, DBMS, Statistics

Experience

Know AI

AI Intern

June 2026 – Present

Ahmedabad, Gujarat

- Developed **AI applications and LLM solutions** using Python, LangChain, LangGraph, FastAPI, and Hugging Face.
- Implemented **AI/ML workflows and NLP applications** for automated task execution and intelligent information processing.
- Built **RAG pipelines, vector retrieval, and tool integrations** for context-aware generative AI applications.
- Applied **model evaluation and error handling** to improve reliability across AI application workflows.
- Integrated **AI services with backend APIs and deployment workflows** for production-oriented application development.

flickDone

Data Engineer Intern

June 2025 – Aug 2025

Remote

- Built **Python and SQL data processing pipelines** handling **50,000+ records** for machine learning workflows.
- Developed **data ingestion, validation, transformation, and preprocessing** pipelines using Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** through optimized processing, validation, and database query workflows.

Projects

LangGraph Workflow Orchestrator | Live Demo

Aug 2026

- Built a **stateful AI agent platform** for multi-step task execution, intelligent routing, and workflow automation.
- Used **Python, LangGraph, LangChain, FastAPI, and Gemini** to implement AI workflows and error recovery.

Production-Grade RAG Engine | Live Demo

Jun 2026 – Aug 2026

- Developed an **end-to-end RAG application** supporting document processing, vector retrieval, reranking, and evaluation.
- Used **Python, FastAPI, Qdrant, LangChain, and AWS** for AI model integration and cloud deployment.

Regulatory Compliance RAG Assistant | Live Demo

2026

- Built a **NLP-powered RAG assistant** for document retrieval, contextual analysis, and grounded generative responses.
- Used **Python, Streamlit, LangChain, and vector search** to process documents and deliver interactive AI responses.

Technical Skills

Languages: Python, SQL, Java, C++, JavaScript, TypeScript

AI/ML: Machine Learning, AI/ML Algorithms, NLP, Generative AI, LLMs, RAG, AI Model Development

Frameworks & Libraries: LangGraph, LangChain, FastAPI, Pydantic, Pandas, NumPy

Databases: Qdrant, ChromaDB, PostgreSQL, MySQL

Cloud & Infrastructure: AWS, Docker, Linux, CI/CD, Deployment

Tools & Platforms: Git, GitHub Actions, Vector Search, LLM APIs, Hugging Face

Achievements & Awards

1st Place – Hackathon 2025 – Secured **1st place** in an AI hackathon for developing an AI-focused solution.

SAP Certified Data Analyst – Earned the **SAP Certified Data Analyst – SAP Analytics Cloud** certification.

Generative AI Certification – Completed **Generative AI** certification from DeepLearning.AI.

Prompt Engineering Certification – Completed **Prompt Engineering for ChatGPT** certification from Vanderbilt University.

AI Applications Development Certification – Completed **AI Applications Development** certification through Scrimba.
