EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Engineer Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built production LLM applications using Python, FastAPI, PyTorch, OpenAI APIs, and agent workflows.
- Developed RAG pipelines integrating documents, embeddings, vector databases, and semantic retrieval systems.
- Designed LangChain AI agents with tool integrations, orchestration workflows, and context management.
- Implemented evaluation, monitoring, debugging, and optimization workflows improving AI system accuracy.
- Built scalable AI services using modular architecture, APIs, and automated workflow pipelines.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable ETL pipelines processing 50,000+ records using Python, Pandas, NumPy, and SQL databases.
- Developed ingestion, transformation, embedding generation, and indexing pipelines for AI workflows.
- Optimized PostgreSQL and MySQL queries improving backend performance and application scalability.
- Created validation workflows improving machine learning data quality and system reliability.
- Developed REST APIs and deployed services using Docker, Git, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Built RAG application using LangChain, embeddings, and ChromaDB for grounded AI responses.
- Implemented document chunking, indexing, retrieval pipelines, and FastAPI services for LLM workflows.
- Developed evaluation workflows measuring retrieval quality, accuracy, and response performance metrics.
- Applied prompt engineering and retrieval optimization techniques for reliable AI assistants.

Smart Traffic AI Surveillance System | Python, YOLO, OpenCV, FastAPI, AWS Jun 2025 – Aug 2025

- Built computer vision AI system using YOLO, OpenCV, and Python for detection workflows.
- Developed scalable inference pipelines supporting automated analysis and AI-driven decisions.
- Integrated FastAPI services for model deployment and backend application integration.
- Containerized AI services using Docker and AWS for production deployment workflows.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI Jun 2024 – Aug 2024

- Built multi-agent AI assistant using LLM APIs for reasoning, automation, and task execution.
- Integrated OpenAI APIs with prompts, tools, and structured agent workflows.
- Implemented logging, evaluation, monitoring, and testing for reliable AI applications.
- Developed Docker deployments for scalable AI services and backend operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++

AI/ML: Large Language Models, GPT, Generative AI, RAG, Agentic AI, Prompt Engineering, Embeddings, Model Evaluation

Frameworks: LangChain, LangGraph, PyTorch, FastAPI, Hugging Face Transformers, TensorFlow, OpenCV

Data & APIs: REST APIs, Vector Databases, ChromaDB, FAISS, PostgreSQL, MySQL, Data Pipelines

Cloud & MLOps: AWS, Docker, Kubernetes, Git, GitHub Actions, Linux, CI/CD, Model Deployment

Engineering: Backend Development, AI Agents, Multi-Agent Systems, Microservices, System Design, Data Structures, Algorithms
