EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built LLM-powered applications using Python, PyTorch, FastAPI, multimodal AI, and prompt engineering workflows.
- Developed FastAPI services integrating AI models, vector databases, and scalable retrieval inference workflows.
- Designed data pipelines for embeddings, document indexing, retrieval, and AI model workflows.
- Implemented testing, monitoring, validation, and optimization for reliable production AI applications.
- Built AI assistants using LangChain, deep learning models, and multimodal automation pipelines.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable ETL pipelines processing 50,000+ records using Python, Pandas, NumPy, SQL, and databases.
- Developed data ingestion, cleaning, transformation, and embedding pipelines supporting AI applications.
- Optimized PostgreSQL and MySQL queries improving data accessibility and backend application performance.
- Created automated validation workflows improving data quality for machine learning applications.
- Developed REST APIs and containerized deployments using Docker, Git, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | Python, LangChain, Hugging Face, ChromaDB Apr 2026 – Jun 2026

- Built a Retrieval-Augmented Generation system using LangChain, embeddings, and vector databases for knowledge search.
- Implemented document processing, indexing, retrieval pipelines, and FastAPI services for AI responses.
- Developed testing workflows measuring retrieval accuracy, response quality, and model performance metrics.
- Applied prompt engineering and optimization techniques for reliable AI assistant workflows.

Smart Traffic AI Surveillance System | Python, YOLO, OpenCV, FastAPI, AWS Jun 2025 – Aug 2025

- Built a computer vision system using YOLO, OpenCV, and Python for object detection and tracking.
- Developed image processing pipelines for detection, classification, and scalable inference workflows.
- Integrated FastAPI services for AI model deployment and backend API integration workflows.
- Containerized AI services using Docker and AWS for reliable production deployments.

Morning Market Brief | Python, OpenAI API, Docker, Multi-Agent AI Jun 2024 – Aug 2024

- Built a multi-agent AI assistant for automated reasoning, information processing, and workflow execution.
- Integrated OpenAI APIs and prompt engineering for intelligent analysis and automation workflows.
- Implemented logging, monitoring, testing, and evaluation processes for reliable AI applications.
- Developed containerized deployments using Docker for scalable AI services and backend operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++

AI/ML: Large Language Models, RAG, Computer Vision, Deep Learning, Machine Learning, NLP, Prompt Engineering, Generative AI

Frameworks: PyTorch, LangChain, FastAPI, TensorFlow, OpenCV, Scikit-learn, Hugging Face Transformers

Data & APIs: Pandas, NumPy, REST APIs, PostgreSQL, MySQL, Vector Databases, Embeddings, Data Pipelines

Cloud & MLOps: AWS, Docker, Git, GitHub Actions, Linux, CI/CD, Model Deployment, Monitoring

Engineering: Backend Development, AI Assistants, Multi-Agent Systems, Object-Oriented Programming, Data Structures, Algorithms
