SUMMARY

AI/ML Engineer experienced in building **Python-based ML systems, data pipelines, and production AI applications** using **PyTorch, scikit-learn, SQL, FastAPI, Hugging Face, RAG, Docker, AWS, CI/CD, and MLOps**. Focused on reliable ML workflows, evaluation, monitoring, and deployment.

EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures & Algorithms, Machine Learning, Artificial Intelligence, Distributed Systems, DBMS, Computer Networks, Statistics

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Build **Python-based AI/ML applications and backend services** using FastAPI, PyTorch, Hugging Face, LangChain, LangGraph, and LLM APIs.
- Develop **data processing and ML workflows** integrating structured data, vector databases, external APIs, embeddings, and model inference components.
- Implement **model evaluation, validation, testing, debugging, logging, monitoring, and error handling** for reliable AI system operation.
- Work across **data preparation, model integration, API development, workflow implementation, and deployment** for production-oriented machine learning applications.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote

- Built **Python and SQL data pipelines** processing **50,000+ records** for analytics and machine learning workflows.
- Developed **data ingestion, preprocessing, validation, transformation, feature preparation, and optimization** pipelines using Pandas, NumPy, and SQL.
- Improved **system reliability by 30%** and reduced **query latency by 25%** through data and query optimization.
- Implemented **Docker, GitHub Actions, CI/CD, automated testing, and deployment workflows** for reproducible ML/data engineering environments.

PROJECTS

Production-Grade RAG Engine | *Live Demo* | *Python, FastAPI, Qdrant, AWS, Inngest* Jun 2026 – Aug 2026

- Built a **production-oriented ML pipeline** covering document ingestion, preprocessing, embeddings, semantic retrieval, ranking, generation, and evaluation.
- Developed **FastAPI APIs and scalable backend workflows** for data processing, retrieval, model integration, and AI application execution.
- Implemented **validation, evaluation, fallback execution, error handling, monitoring, and logging** to improve reliability of ML services.

LangGraph Workflow Orchestrator | *Live Demo* | *Python, LangGraph, FastAPI, LangChain, Gemini* Aug 2026

- Built a **Python-based AI workflow platform** for task routing, stateful execution, tool integration, and multi-step model workflows.
- Developed reusable **backend abstractions and controlled execution workflows** with structured state management, validation, and failure handling.
- Implemented **testing, debugging, monitoring, and performance analysis** across multiple AI workflow execution patterns.

AI Product Recommendation System | *Python, FastAPI, SQL, LangChain, Docker*

Jun 2025 – Aug 2025

- Built a **Python-based ML recommendation application** integrating structured data, embeddings, retrieval, and AI-driven recommendation workflows.
- Implemented **data processing, feature preparation, semantic retrieval, and recommendation pipelines** for personalized product discovery.
- Developed and containerized backend services using **FastAPI and Docker** for reproducible deployment environments.

TECHNICAL SKILLS

Programming: Python, SQL, C++

Machine Learning: PyTorch, scikit-learn, Hugging Face, Machine Learning, Feature Engineering, Model Evaluation

AI/GenAI: LLMs, RAG, Embeddings, Vector Search, LangChain, Prompt Engineering

Data Engineering: Data Pipelines, ETL, Data Processing, Data Validation, Pandas, NumPy

Backend: FastAPI, REST APIs, Async Processing, API Integration

Databases: PostgreSQL, MySQL, Qdrant, ChromaDB, Vector Databases

Cloud/MLOps: AWS, Docker, Git, GitHub Actions, CI/CD, MLOps, Model Serving, Monitoring

Engineering: Testing, Debugging, Performance Optimization, System Design, Logging, Deployment
