EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, NLP, Data Structures, Algorithms, DBMS, Distributed Systems

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Develop AI/ML applications using Python, PyTorch, Deep Learning models, and modern AI frameworks.
- Build FastAPI services integrating AI models with applications, REST APIs, and automated workflows.
- Develop machine learning workflows for model experimentation, evaluation, inference, and performance optimization.
- Implement testing, monitoring, validation, and optimization for reliable AI model deployment.
- Deploy AI services using Docker, Git, REST APIs, and production-oriented engineering workflows.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable Python and SQL data pipelines processing 50,000+ records for analytics and machine learning workflows.
- Developed data preprocessing, transformation, validation, and automated processing pipelines for AI applications.
- Prepared structured datasets supporting machine learning workflows, analytical applications, and model development.
- Implemented automated validation and processing workflows improving data quality, consistency, and reliability.
- Contributed to REST APIs and CI/CD workflows using GitHub, Docker, and Linux development environments.

PROJECTS

Smart Traffic AI Surveillance System | Python, YOLO, OpenCV, PyTorch, FastAPI

Jun 2025 – Aug 2025

- Built a computer vision system using Python, YOLO, OpenCV, and PyTorch for real-time object detection.
- Implemented image preprocessing, object detection, inference, and computer vision processing pipelines.
- Developed FastAPI REST services for integrating computer vision models with AI applications.
- Containerized AI services using Docker for reproducible development and deployment environments.

Regulatory Compliance RAG Assistant | Python, PyTorch, Hugging Face, FastAPI

Apr 2026 – Jun 2026

- Built an AI application using Python, Hugging Face, PyTorch, and FastAPI for intelligent document processing.
- Implemented document preprocessing, embeddings, semantic retrieval, and machine learning inference workflows.
- Developed evaluation pipelines for measuring model performance, retrieval quality, and response reliability.
- Integrated AI models with FastAPI services for application-level inference and deployment.

Morning Market Brief | Python, PyTorch, OpenAI API, Docker

Jun 2024 – Aug 2024

- Built a Python-based AI application using machine learning and LLM workflows for information processing.
- Developed AI workflows for analysis, reasoning, summarization, and automated response generation.
- Implemented testing, logging, monitoring, and evaluation for reliable AI application performance.
- Containerized AI services using Docker for reproducible development and deployment workflows.

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++

AI/ML: Machine Learning, Deep Learning, Computer Vision, Generative AI, NLP, Model Evaluation

Frameworks: PyTorch, TensorFlow, OpenCV, Scikit-learn, Hugging Face, FastAPI

Computer Vision: YOLO, Object Detection, Image Processing, Image Preprocessing, Model Inference

AI Engineering: Model Development, Model Validation, REST APIs, AI Pipelines, Testing, Deployment

Tools: Docker, Git, GitHub, GitHub Actions, Linux
