EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Computer Architecture

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built AI applications using Python, PyTorch, Large Language Models, multimodal AI, and model evaluation workflows.
- Developed FastAPI services integrating AI models, REST APIs, and scalable enterprise inference workflows.
- Designed data pipelines for embeddings, document processing, vector databases, and AI model workflows.
- Implemented testing, monitoring, validation, and optimization for reliable production AI systems.
- Built AI workflows using prompt engineering, deep learning models, and multimodal automation pipelines.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable ETL pipelines processing 50,000+ records using Python, Pandas, NumPy, SQL, and databases.
- Developed data ingestion, cleaning, transformation, and REST API integration pipelines supporting AI systems.
- Optimized PostgreSQL and MySQL queries improving data accessibility and backend application performance.
- Created automated validation workflows improving data quality for machine learning applications.
- Developed REST APIs and containerized deployments using Docker, Git, GitHub Actions, and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | *Python, LangChain, Hugging Face, ChromaDB* Apr 2026 – Jun 2026

- Built an AI retrieval system using Python, LangChain, embeddings, and vector databases for knowledge search.
- Implemented document processing, indexing, retrieval pipelines, and evaluation workflows for AI responses.
- Developed testing workflows measuring retrieval accuracy, response quality, and model performance metrics.
- Applied prompt engineering and optimization techniques for reliable enterprise AI workflows.

Smart Traffic AI Surveillance System | *Python, YOLO, OpenCV, FastAPI, AWS* Jun 2025 – Aug 2025

- Built a computer vision system using YOLO, OpenCV, and Python for object detection and tracking.
- Developed image processing pipelines for detection, classification, and scalable inference workflows.
- Integrated FastAPI services for AI model deployment and REST API integration workflows.
- Containerized AI services using Docker for reliable deployment and production environments.

Morning Market Brief | *Python, OpenAI API, Docker, Multi-Agent AI* Jun 2024 – Aug 2024

- Built an AI system for automated reasoning, information processing, and workflow execution.
- Integrated AI APIs and prompt engineering for intelligent analysis and automation workflows.
- Implemented logging, monitoring, testing, and evaluation processes for reliable AI applications.
- Developed containerized deployments using Docker for scalable AI services and backend operations.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript, TypeScript, Java, C/C++

AI/ML: Large Language Models, Computer Vision, Deep Learning, Machine Learning, NLP, Multimodal AI, Generative AI, Model Evaluation

Frameworks: PyTorch, TensorFlow, LangChain, OpenCV, Scikit-learn, FastAPI, Flask, Hugging Face Transformers

Data & APIs: Pandas, NumPy, REST APIs, ETL/ELT, PostgreSQL, MySQL, Vector Databases, Data Pipelines

Cloud & MLOps: AWS, Docker, Git, GitHub Actions, Linux, CI/CD, Model Deployment, Monitoring

Engineering: Backend Development, System Design, Object-Oriented Programming, Data Structures, Algorithms, API Development
