EDUCATION

Lovely Professional University

B.Tech in Computer Science and Engineering

Jalandhar, Punjab

Aug 2022 – May 2026

- **Relevant Coursework:** Data Structures, Algorithms, Operating Systems, DBMS, Computer Networks, Artificial Intelligence, Machine Learning, Distributed Systems, Statistical Analysis

EXPERIENCE

AI Intern

Know AI

June 2026 – Present

Ahmedabad, Gujarat

- Built scalable AI workflows using Python, machine learning, embeddings, and model evaluation pipelines.
- Developed backend microservices and REST APIs supporting AI solutions, automation, and data processing.
- Designed scalable data pipelines using structured processing, feature engineering, and retrieval techniques.
- Performed AI model evaluation through testing, validation, error analysis, and performance optimization.
- Improved solution reliability through debugging, monitoring, testing, and scalable AI deployments.

Data Engineer Intern

flickDone

June 2025 – Aug 2025

Remote (South Korea-based company)

- Built scalable data pipelines processing 50,000+ records using Python (NumPy, Pandas) and SQL.
- Designed ETL pipelines for data ingestion, validation, transformation, and automated workflows.
- Optimized PostgreSQL and MySQL queries improving database performance, indexing, and retrieval.
- Built automated validation frameworks ensuring reliable datasets for analytics and AI applications.
- Developed REST APIs and contributed to Docker-based CI/CD workflows using GitHub and Linux.

PROJECTS

Regulatory Compliance RAG Assistant | *Python, LangChain, Hugging Face*

Apr 2026 – Jun 2026

- Built a retrieval system using Python, LangChain, Hugging Face, and ChromaDB.
- Implemented semantic search using vector embeddings and information retrieval algorithms.
- Optimized AI pipelines through evaluation, performance analysis, and response improvements.
- Developed monitoring workflows for model validation, testing, and performance evaluation.

AI Recommendation System | *Python, FastAPI, Docker, LangChain, Prisma*

Jun 2025 – Aug 2025

- Built an AI recommendation system using Python, FastAPI, and LangChain backend workflows.
- Integrated data pipelines and Prisma for scalable backend processing and API applications.
- Developed REST APIs supporting recommendation workflows and system integrations.
- Containerized applications using Docker for reliable deployment and scalable services.

Morning Market Brief | *Python, OpenAI API, Docker, Multi-Agent AI*

Jun 2024 – Aug 2024

- Built a data-driven system for automated information processing and analysis workflows.
- Integrated OpenAI APIs for intelligent summarization, reasoning, and AI insights.
- Implemented workflow monitoring with execution logging and performance tracking mechanisms.
- Containerized services using Docker for scalable deployments and automation.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, SQL (PostgreSQL), JavaScript

Frameworks: FastAPI, Flask, React, Node.js, Scikit-learn, LangChain

Developer Tools: Git, Docker, GitHub Actions, Linux, Azure OpenAI, Azure Blob Storage

Libraries: Hugging Face, Pandas, NumPy, PyTorch
